

Fisk opening - moving forward, meeting new challenges

01 April 2010

Here is some good news for all fish and seafood lovers. Snorre Food has just launched Fisk, a distribution outlet offering unique specialties of gourmet seafood sourced from Scandinavia, in an assortment of cuts, portions and fillets. Now available to the public, our wide range of fresh, frozen, or marinated fish, crustaceans, shellfish, caviar and sauces can now be pre-ordered a day in advance and collected at our Jurong premises, subject to availability. On top of the usual favourites, Snorre Food offers a rare selection of seafood including Snowfish, Halibut, Plaice and Turbot, Lobsters, Langoustines, Camchatcha Crab, and Scampis.
